Source: Insight Investment and Rimes. Fund performance is shown for share class B € Acc (which has an inception date of the 30 November 2012) and is calculated as total return, including reinvested income, gross of fees and expenses. Gross of fees performance results do not reflect the deduction of charges, which will reduce investors' returns. Benchmark performance shown is for 3 Month Euribor. Performance for periods over one year is annualised. Past performance is not indicative of future results. Investment in any strategy involves a risk of loss which may partly be due to exchange rate fluctuations.

FUND MANAGER COMMENTS

The Fund generated a positive return in August. Risk free assets were volatile and credit spreads widened. The Fund's credit positioning was neutral. Our long positions in loans and asset-backed securities contributed. Our long positions in European investment grade credit relative to European high yield credit and US investment grade credit were negative. Country selection proved detrimental, owing to our relative short position in Europe against long positions in other markets. Our emerging market positions detracted, due to rising yields. The Fund's swap spread position was a negative. Our yield curve positioning had a positive impact on performance, driven by the steeper position in UK interest rate swaps. The Fund's duration positioning detracted, due to our long position in US Treasuries. Our inflation positions had a positive impact on performance, resulting from our short position in euro-denominated inflation swaps. The Fund's currency positioning was neutral.

FUND FACTS

Fund size: £549.4m (€641.4m)

Inception date: 1 September 2006

Benchmark: 3 Month EURIBOR

Fund manager: Peter Bentley; Gareth Colesmith; Shaun Casey

Target return: Outperform benchmark by 2% pa (before tax, fees and expenses) over rolling three year periods. However, a positive return is not guaranteed and a capital loss may occur.
