Source: Insight Investment and Rimes. Fund performance is shown for share class A £ Acc and is calculated as total return, including reinvested income, gross of fees and expenses. Gross of fees performance results do not reflect the deduction of charges, which will reduce investors' returns. Benchmark performance shown is for SONIA (previously benchmarked against 3-Month GBP LIBOR until 31st December 2020). Performance for periods over one year is annualised. Past performance is not a guide to future performance. The value of investments and any income from them will fluctuate and is not guaranteed (this may be partly due to exchange rate fluctuations). Investors may not get back the full amount invested.

FUND MANAGER COMMENTS

The Fund outperformed its cash benchmark in March. Risk assets posted gains given expectations of monetary easing. European structured credit performed well, largely driven by carry. Despite elevated valuations, relative value versus corporate credit remains attractive. However, the prospects of meaningful tightening have diminished. It was a busy month in terms of issuance, with the increase led by residential mortgage-backed securities (MBS) and collateralised loan obligations (CLOs). The best-performing assets remain within the bottom tranches of investment grade. US structured credit posted gains, against elevated primary issuance and strong demand. Spread tightening in AAA rated assets was marginal, while spreads within mezzanine paper tightened more meaningfully. In our view, strong demand and attractive relative value should lead to further tightening, especially in esoteric sectors. March was quiet on the lending side. Performance was driven by carry and US middle market CLOs.

FUND FACTS

Fund size: £599.6m

Inception date: 19 June 2018

Benchmark: SONIA

Fund managers: Shaheer Guirguis, Jason Cameron, Jeremy Deacon

Target return: Outperform benchmark by 4% pa (before tax, fees and charges) over rolling three year periods. However, a positive return is not guaranteed and a capital loss may occur.
